Guy B. Howe Jr. has agreed to purchase the railroad station from the Boston and Maine Railroad, for an undisclosed price.

Formal agreement from the Railroad's Board of Directors is being obtained this week, Howe stated. Permission must also be obtained by the Railroad from the Department of Public Utilities, according to Railroad officials.

Waiting room and ticket facilities must be retained on the property, Howe told the Townsman. Some 600 square feet of waiting room space, sanitary facilities and room for ticket sales must be provided for passengers.

Railroad officials explained this week that there will be no less service than before, under the agreements contained in deeds to railroad waiting rooms. The Railroad has most of its stations for sale.

Retained by the utility was the long platform, with Mr. Howe purchasing, when the formal ratification of the agreement is completed, the present building, and the land on the Lupine rd. side of the station.

Erected In 1906

The building was erected back in 1906, replacing the station built when the line was moved to its present location. The old station had a wooden canopy, under which the trains loaded or discharged passengers.

Political Warfare Due; 15 Men Seek 5 Seats

The stage has now been set for one of the most significant town elections in Andover's history.

A total of 15 candidates seek five Selectmen's jobs – all new under the town manager charter.

Four men want the two three-year seats; five are competing for two two-year posts; and six candidates want the one-year term.

Other Contests

All other offices on the ballot are contested as well.

Charles G. Hatch seeks re-election as moderator, opposed by John F. O'Connell.

School Committee member Reta V. Buchan wants to serve for another three years and three others are entered in the race for a total of two seats – Vincent P. Davey, John S. Sullivan and Kenneth P. Thompson.

Thomas R. Wallace seeks re-election to the Housing Authority, opposed by Albert Cole Jr.

One question appears on the ballot, asking the voters for a decision on paying half of the premiums for life, medical and surgical insurance. The question appears on the ballot at the request of the Town Employees' Association. The Selectmen were

Heard Expert On Town Manager

Andover won't have too much trouble getting a town manager, even though top-notch men in the field don't like to work in Massachusetts.

That's the opinion of John Agnew, vice president of the First National Bank of Boston and founder of a town manager's school at Northeastern University.

Speaking to the Taxpayers' Association annual meeting Monday night, Agnew said "You've got a pretty nice town" and managers will know this and want to come.

Even though this be true, he warned, one of the problems associated with town managership is the possibility of managers leaving for other positions. Thus, he suggested, a salary of about $12,000 would be needed to make the position sufficiently attractive to keep a good manager.

Ambitious Plans At Workshop

Although the last curtain has long since fallen on the final and memorable performance of the Children's Theater Workshop of "Alice in Wonderland," the backstage activity has been continuing through these winter months.

Under the direction of Ralph H.R.L. Symonds, three play production groups have been formed for the purpose of presenting three one-act plays in the spring. Each group has its adult advisor, and to give the young people experience in every aspect of theater work, a play director has been elected within each group.

The Ibsens, with Mrs. Edward Erickson as advisor, have elected Ann McGinty as director, to be assisted by Kieneth Dryer.

The Shavians have, as their director, Susan Kenny, assisted by Ann Doherty, Mrs. Waters Kellogg is their advisor.

The Johnsonians are guided by Mrs. Gerard Bradford and Mrs. Ralph Schmidt, with Hilary Hayes as their youthful director.

These three groups will each present a one-act play April 10 and 11 at the Memorial Auditorium in the Andover Junior High and

Legislators Critical Of Tax Proposals

Representatives Arthur S. Williams of Andover and Frank S. Giles of Methuen gave Governor Foster Furcolo's withholding tax bill a sound thrashing before 50 members and guests of the League of Women Voters at its third annual legislator's night Thursday, Jan. 22.

Both legislators talked freely on the bill which passed the House, along with discussing several other items of legislation scheduled for action in the current session.

Rep. Williams told the group that he was opposed to the bill because the windfall which will result would be bad and that the cities and towns of the Commonwealth would not receive any of the receipts.

He stated, "this administration is not being honest with the legislators", and explained that the governor is not giving the House and Senate an opportunity to study the financial picture as well as a thorough lack of explanation. Rather the state's chief executive is in effect telling the legislators what to do, he said.

The representative said he was surprised at the manner in which the governor's plans for financial relief have been presented, the withholding legislation coming first. He was compelled to vote against the bill, primarily because consideration of the temporary tax bill and the sales tax legislation is still to come before the General Court.

Rep. Giles described the governor's method of presentation as dealing a death blow to the sales tax, which he said now stood less than a 50-50 chance of passage.

He said that it is possible that the withholding law will be defeated in the Senate where action on the bill is scheduled this week. The Republican minority leader told the group that the entire tax structure of the state needs revision.

Furthering the comments of Rep. Williams, he explained his opposition to the withholding law and said that a full and true picture of the state's financial needs has not been given the legislators.

The legislators stated that the second most important issue before them in this session will be commutation problems. They favored the setting up of a commission to study the state's transportation problems.

Both were introduced by Atty. Robert S. Zollner, who acted as moderator for the session.

A large group of the West Parish Pilgrim Junior High Fellowship went to Boston last Friday evening and enjoyed a performance of "Windjammer" at the Boston Theatre.

THE END — The parsonage mortgage of the South Church went up in flames at the annual meeting last Wednesday night. Dr. William V. Emmons, chairman of the Finance Committee, set the document afire, while Treasurer Harold G. Goddard Jr. smiled his pleasure. (Leone)

Mortgage Burned Up At South Church Meeting

While members of the South Church looked happily on, Dr. William V. Emmons set fire to the parsonage mortgage last Wednesday night.

Even though the fire didn't last very long, as cautious on-lookers warned of setting the building afire, the result was the same — the end of the mortgage.

Dr. Emmons served as chairman of the financial committee of the church and officiated at the official "burning".

Members unanimously voted to undertake the renovation and rebuilding of the organ. Roy E. Coombs Jr., chairman of the organ committee, presented a detailed report of the needs and requirements and suggested that the work be undertaken in five steps. The initial step in the rebuilding of the great organ will be contracted and work will begin as soon as possible, in accordance with the vote of the meeting.

Arthur W. Bassett will begin his 24th year as clerk of the Church as a result of the elections which were held. Cleveland Gilcreast was the moderator for the meeting.

Color Prints At Abbot Gallery

The John-Esther Art Gallery of Abbot Academy, presents a new exhibition, entitled "International Selection of Color Prints", which will remain on display from Feb. 1 through Feb. 26. Lent by the George Binet Print Collection, these prints, 50 original works, were chosen from countries where color printmaking plays a major role. Color lithography leads in Europe, due no doubt to the fine assistance of their printers and the accessibility of lithographic studios to the artists. Other color media such as etching, wood and linoleum blocks are more widely employed in America where the artist makes use of the etching press and block printing also for color work.

French artists were pioneers in this field, establishing their fame with technical proficiency in works of creative originality. Rouault's and Villon's color etchings and aquatings were considered revolutionary when they executed them, contributing to their world-wide reputation. (Villon's "Composition" of 1928 is one of the most famous). Picasso occasionally surprises with a tour de force in color. Gischia, Pignon, Cochet, Hartung, and Aizpiri, well-known for their paintings as well as their prints, present various trends in color lithography.

Two Italian artists living in Paris absorbed French lithographic techniques but remained highly individual in expression; Severini, one of the founders of futurism and a leading cubist, and Campigli, whose personal style is inspired by the remote Etruscan past and whose recent recognition places him in the foreground of contemporary Italian art.

Other Italian artists have made strong bid for leadership in the print field in the past 10 years. The great old man of Italian art, De Chirico, is still active. The abstractionists and near-abstractionists Capogrossi, Afro, and Santomaso (whose "Notturno in Marino" was commissioned for the Binet Collection) has already achieved an international reputation. Spacal was awarded first prize in prints in the 1958 Venice Biennal. Most Italian artists prefer lithography but Gentilini shows a fine example in the use of mixed media.

Impressive and satisfying is the development of color lithography in England. Painters and the famous sculptor Henry Moore have turned to this medium with inspiration and dedication. Among the painters, Sutherland and Piper have achieved great international renown. The well-known William Hayter practices and teaches etching now in Paris.

The American and Latin American groups introduce a wide variety of approaches. The American section, noted for ingeniously-applied techniques, represent mainly abstractionist and expressionist trends with works by Haass, Heller, Mead, and Tacke in etching and woodcut. Some of the most successful and impressive color lithographs by American artists are those by Spruance and Weddige.

The Latin American groups are lead by the Mexican school (Bracho, Lugo, O'Higgins), though some of the artists like Merida were born in other countries and still others, Amero and Charlot, born in Mexico, live and work now in the United States but their works are inspired by Mexican artistic heritage.

Other countries represented are: Spain with works by Miro, Galicia, Hurtuna and Lagar; Switzerland (Durig); Greece (Callyiannis); Sweden (Rathsman); Roumania (Helman); Turkey (Rahmi); Israel (Pins); India (Reddy); with two Chinese artists living in Paris and New York, Zao Wouki, and Walassa Ting, completing this interesting and instructive exhibition.

The world's most beautifully proportioned cars

Sensibly Sensational!

Every line says good taste and good sense

Just look at those elegant lines! Every one suggests kinship with the Thunderbird. Ford's wider-opening doors are easier to enter. Ford offers hat room, knee room, hip room and full comfort for six big 6-footers. Ford's headlights are high, more out of harm's way. You don't have to lift luggage way up as in other big sellers. But that's just the start of Ford's common sense ways.

Every price tag says it's America's Best Buy

Ford prices have *stayed down* far better than any of the big-selling three. The result? In comparable models right down the line Ford's prices are lowest for '59*. With extras, the savings are even greater. You can save up to $100 and more with the equipment most folks want . . . up to $200 if you want air conditioning.

**Based on manufacturers' suggested retail delivered prices*

Every mile says it's the King-of-Thrift

Imagine saving up to $1.00 on each tankful of gas. Well you *do*, because Ford *thrives* on regular gas. And 20 miles per gallon was not uncommon in tests Ford has run with average drivers in Ford Sixes. Ford needs less oil, too! It requires oil changes every 4000 miles, *only!* Ford mufflers last twice as long because they're aluminized. Ford's Diamond Lustre Finishes never need waxing. Yes sir! You just *start* saving when you buy a Ford!

The savings are GREAT at your neighborhood Ford Dealer's

Pack 72 Celebrated "News Month"

Cubs in Pack 72 of the Free Church celebrated "News Month" at their meeting Jan. 20. An impressive display of newspaper headlines was shown and an editor's desk was set up.

Den two opened the meeting with a Flag ceremony and the Scouters Prayer was read by Charles Chase. Flag bearers were Louis Korovas and Allan Thomson; color guards, Charles Chase and Robert Hamilton; lighting, Richard Piercy and Den Chief Robert Petrie. The ceremony was performed in darkness, with a spotlight on the Flag.

Den three led the "Law of the Pack", followed by the presentation of many awards. Several boys received their lion badges, the highest badge offered in Cub Scouts. After receiving it, the boy moves up to a Webelos Den. The youngest cub ever to receive this award in the Pack is Robert Hamilton.

After the ceremonies, a sports movie was shown and games were played. The attendance banner was won by Den four. This is awarded to the Den having the largest number of parents in attendance.

Den one led the closing "Cub Scout Oath".

Many parents of new cubs attended the meeting. Any boy age eight or over can be a member and is welcome to visit the meetings. Applications for membership may be obtained from Scoutmaster Norman Pratt of Memorial cir., Assistant Scoutmaster Arthur Hall of Chestnut st. or the following den mothers: Mrs. Robert Hamilton, Mrs. Eleanor Piscadlo, Mrs. Jerry Markow, Mrs. Allan Thomson, Mrs. Ann Arnold or Mrs. Dorothy Piercy.

The committee is planning a covered dish supper, with a Mardi Gras theme, sometime in February. Other activities are planned throughout the winter season, and until June.

EDITORIAL THOUGHTS

It's Your Business!

Several citizens have expressed their feelings that this newspaper had no real business discussing the recent meeting of the Town Employees' Association or criticizing the lack of information coming out of the meeting.

Very simply, let us put the record straight:

It's not our business — it is your business. Important discussions took place at the meeting, followed by decisions that can affect every taxpayer in the community. They have a right to know what those decisions were.

The meeting debated reconsidering the vote to ask for a pay raise, for example. Isn't it interesting to know that some members of the Association feel that a raise should not be considered at town meeting? Or are we supposed to continue under the impression that the vote was practically unanimous?

Other details concerned the proposed payment of half the insurance premiums for life, medical and surgical policies. This, the employees' group has said, will cost the town $28,000. Isn't this important?

You can judge for yourselves whether these matters are of concern to the men and women who employ the persons at that meeting. We believe they are, and do not believe that a "press representative" has the privilege to issue a statement that does not provide this information.

For to the people paying the bills, this is a matter of utmost concern.

Putting It Off Causes Trouble

Is this the year?

That simple four-word question will crop up in many conversations between now and town meeting, as tax-conscious residents consider budgets and articles coming before town meeting.

Over the years, how many worthwhile projects have been defeated or postponed, never to be approved in later years, because someone asked that question at town meeting.

One sure way to kill a project, while seeming to be nice about it, is to suggest that "this isn't the year; let's put it off until next year." When this happens year after year, a tremendous debt, measured in projects that should have been accomplished, piles up for future generations. Let's not let this happen again. We've been spending lots of money in recent years to pay off this debt, left by other voters in the years gone by, and we should have learned a costly lesson.

It just doesn't pay to put off and postpone necessary projects that must be done some time. If the town saves tax dollars this year by postponing a project, that job may cost more next year when its need is even more obvious. It just doesn't make sense to continue postponing the inevitable, sort of hoping the difficulty will go away if everyone ignores it.

So when budgets and projects are under discussion this year, let's remember that some necessary expenditures must be approved — even if this means raising additional tax money — to avoid spending even more next year. We don't pretend to be spendthrift and it is not our desire to see the 1959 tax bills larger than absolutely necessary. But where many dollars may be saved by spending this year, instead of waiting, this course of action should be adopted.

Down the Years with The Townsman

50 Years Ago — January, 1909

The Senior Class at Punchard went on a sleigh ride Friday night, accompanied by several faculty members.

George Dick captured a butterfly last Friday.

An alarm of fire was received from Box 35, at the Phillips Academy running track, about 6:15 Saturday morning. A motorman on the early car from Lawrence saw the smoke and notified fire headquarters. The fire was soon put out, with small damage resulting.

The last few days have been exceptionally cold, with sub-zero readings lasting for three days.

Carl Sandberg, the poet, philosopher and biographer, will speak at the Meeting Room at Phillips Academy Feb. 5 at 8:15 p.m. Anyone in the town, interested in hearing him, is welcome to attend.

The sum of $7,330 was granted to the town this week for continuation of the CWA work until Feb. 15.

An over-all tuition fee of $1,100 will be charged at Phillips Academy, instead of the scattered fees formerly charged. It is felt that the one fee for all purposes will be easier on the administration and on the students.

The Historical Society will hold its annual Ball, celebrating George Washington's birthday, Feb. 21 at the Society.

Dr. J. J. Daly will discuss "Public Welfare in Andover" at a meeting in the Administration Building hall in Shawsheen the evening of Feb. 6. The League of Women Voters is sponsoring the meeting. Dr. Daly, as Selectman, is overseeing the program in Andover.

The program will begin at 3:35 o'clock, and like most story hours, will continue for about an hour. Parents planning to pick up children should take note of this.

Films Available

The following films are available at the Memorial Hall Library for use of groups in the community for the dates indicated. Those planning to make use of the films should call the library, before six o'clock, if possible, to make reservations. It is wise to make these arrangements as well in advance of the intended showing as possible in order to avoid conflict with other groups setting up programs. From Feb. 1-28, "What A Vacation", a 26 minute, color trip to New York City; Feb. 5-March 31, "Abegweit", a fifteen minute travel tour of Prince Edward Island, often called the "garden of the gulf"; for the same dates, two other color Canadian films, "Highland Legend" and "Yoho: Wonder Valley, running 20 and 11 minutes, respectively; Feb. 16-20, "True Story Of The Civil War", an impressive presentation of moments of the Civil War, which will inspire viewers to learn more of this vital period of American history; Feb. 23-27, "Lincoln Speaks At Gettysburg", 12 minutes; Feb. 23-27, "Man In Space" — this will have appeal to those who want to know when man began to think about space flight; Feb. 24-Mar. 6, "Coral Wonderland", 20 minutes, color — here is the coral growth of the Barrier Reef Islands coming to life under the microscope and the reef's unique fishes and underwater creatures; Mar. 1-31, "Pride Of Workmanship", a 20 minute color film that is entertaining and informative for youths and adults alike. It shows how thousands of students in high schools all over the country are learning industrial skills and crafts.

The Fire Department is seeking a change from its 70-hour working week to 56 hours. An appeal on the ballot last year, to work 48 hours, was defeated 2,545 to 1,000. This year's request is in the warrant and will be acted on at town meeting. The Department, consisting of a chief and 16 men, would be increased by four if the change is voted.

George R. Abbott, tree warden, has suggested spraying elm trees from the air in areas of the town where this is practical.

John H. Kelly is seeking re-election to the Board of Public Works and other candidates include Alex Henderson, Douglas N. Howe, Walter E. Mondale, and Alex Ritchie. There are two seats available.

The ninth summer session will be held, starting June 29, at Phillips Academy.

A blood clinic will be held Jan. 31 at South Church. At least 100 pints of blood are needed.

BROWNIES SKATED

Brownie Troop of the West Elementary school enjoyed a Skating Party last Monday afternoon at the Pond in the rear of Atty. and Mrs. Richard Sullivan's home on Virginia rd. Refreshments were served the group at the close of the party by Mrs. Sullivan.

HOWE PURCHASED R R STATION

(Continued from Page One)

Mr. Howe said he intends to use the building, or part of it, for commercial purposes. He suggested that a building probably will be constructed, either actually joining the station, or joining the Howe Heating Co. building. Probably the parking area immediately behind the tracks would be filled in, or the new structure would be of two-story type, so that there would be access from Lupine rd. without going down the steep banking.

There are no immediate specific plans for use of the structure, according to Mr. Howe. But he said that the Equipment Service Co., owned by his brother, probably would occupy some of the area, possibly in the new building.

Access to the railroad tracks and waiting room will be from the Essex st. side, he stated.

With the acquisition of the station, Mr. Howe owns the entire corner where his business is located. He recently purchased the five houses at the corner of Lupine rd. and Ridge st. diagonally across from his business location. Use of that property is uncertain, he said, although an article has been inserted in the town warrant to have it zoned for industry.

The Andona Society is presenting this distinguished choral group, which is the oldest college glee club in the United States. It has been in continuous existence since 1858, making this its 101st year.

The Glee Club has 125 members, from every class and most of the graduate schools. Very few members of the club are majoring in music. The majority are in the humanities and sciences, and much of their musical training has come within the Glee Club. The Conductor, Elliot Forbes, is currently a full professor of music at Harvard, as well as conductor of the Radcliffe Choral Society.

Springfield Col. Gym Team Here

The Springfield College gymnastics team will appear here Feb. 13, in the High School gym, sponsored by the varsity gym team of the High School.

Proceeds from the sale of tickets will be used to purchase gym apparatus and safety equipment for the High School team.

The gym team from Springfield College is well-known throughout the area. Last year, the college celebrated the 50th anniversary of its gymnastic exhibition team, which has performed thousands of times through the years for the entertainment and encouragement of men and women of the area.

Tickets for the event may be purchased from any member of the local team, or from Donald D. Dunn and Richard L. Thornton.

Lodging for the Springfield team, composed of 30 men, is needed for one night.

One of the team members is Robert Leete Jr. of Andover.

"American Line" At Addison Gallery

"The American Line," a show covering 100 years of American drawing, is the most recent exhibition to open at the Addison Gallery of American Art at Phillips Academy. Arranged by the staff of the Gallery on behalf of the American Federation of Arts, the show will continue through Feb. 15, after which it will travel to museums throughout the country.

Consisting of some 100 drawings dating from about 1860 to the present day, the exhibition is based upon a selection gathered from museum collections which are regularly open to the public. Arranged in three sections in order to point up varying approaches to the study and appreciation of drawings, the show begins with a consideration of the materials and methods of drawing and then proceeds, in the second section, to indicate different ways in which these are used by the artist — that is: an investigation of the function of the drawing, and the intent of the artist. The third section of the show presents a brief commentary on the changing aspects of the social and political history of the United States, in which it is pointed out that throughout the period covered by the exhibition, there occurred simultaneously in the hands of different artists a wide range of both approach and content.

Forming a frontispiece to the exhibit is a rare and very little known drawing of Abraham Lincoln, executed by Charles Alfred Barry, which is historically important in that the artist was commissioned by the Boston Republican Club in 1860 to go to Springfield, Ill., to make the drawing from life. The portrait is now owned by the Memorial Hall Library.

Among the museums contributing to the exhibition are: The Fogg Art Museum, Harvard University; The Metropolitan Museum of Art; The Museum of the City of New York; The Museum of Fine Arts; Boston; The Museum of Modern Art, as well as the Addison Gallery.

The Addison Gallery is open to the public free of charge from Monday through Saturday, 9 to 5; and Sunday, 2:30 to 5.

Longworth Gets Party Assignment

Rep. Frank S. Giles of Methuen, minority floor leader in the Massachusetts House of Representatives, has assigned to Rep. William Longworth of Methuen, in the 5th Essex District, the task of reporting on all matters before the Committee on Highways and Motor Vehicles to the Republican leadership in the House.

Longworth, who is commencing his sixth term in the Legislature, will work closely with his party's policy making group in determining the Republican stand on matters that have been referred to the committee.

Arthur W. Cole, welfare agent for the town, is a surgical patient at the New England Baptist Hospital in Boston.

Mrs. Thomas R. Cagney, 26 Salem st., the former Barbara Frawsell, has been notified that she passed the state board examinations in nursing. A graduate of Punchard High, she trained at Lowell General Hospital and is employed there in the operating room.

Igoe Will Talk On Guidance

William J. Igoe, guidance director of the Andover schools, will be the speaker at the next South Elementary PTA meeting, at 7:30, Thursday, Feb. 5. He will explain the guidance program in the school system and particularly the work done in the elementary grades.

A wide background of training and experience well qualifies Mr. Igoe in guidance work. He received a Master's Degree in Guidance from Boston University and was guidance councilor in Andover for five years before becoming director this last year. He has worked with children as a recreational director at summer camps and served as a football coach for seven years.

Mr. Igoe is president of the Merrimac Valley Guidance Association and an associate member of the American Personnel Guidance Association, a national organization. Mr. Igoe lives on Vine st. He has four children, three attending South School, and is a member of the South Elementary PTA.

Preceding the program there will be the usual classroom visitation period when parents have the opportunity of seeing their child's work and teacher. Refreshments will be served after the meeting by fourth grade room mothers under the direction of Mrs. George Moss, hospitality chairman. Mrs. Wendell Matheson, Mrs. Milton Meyers, Mrs. Alexander Lampariello and Mrs. Charles Machen will serve.

HEARD EXPERT ON TOWN MANAGER

(Continued from Page One)

No Policy Decisions

The basic theory of town manager government, he told the group, is that the man is an administrator, carrying out the policies set down by the selectmen.

And it is when the manager decides to enter the field of making policy, he declared, that trouble starts.

Mr. Agnew pointed out that federal and state governments operate with legislative, judicial and executive branches and that these are not supposed to interfere with each other. So, too, is the manager supposed to keep out of policy decisions, he reitterated.

And in answer to a question from the audience, he said that experience shows that more often it is a manager who interferes with policy than it is a selectman who tries to interfere with administration of the policy. But if the manager does experience interference with his responsibilities, Agnew said he should put an immediate stop to it.

Can Fire Him

In his description of a manager plan, Agnew explained that more authority can be given to a man who is hired than can be given to a man elected for a specific term of years.

"If he's hired, he can be fired. But if he's elected, he's just there", he commented.

Even with this authority, the manager "is no miracle man, no cure-all", Agnew warned. But he pointed out that a good manager can do a lot for a community.

State – Federal Areas

With the new bigness in the towns, a manager must be master of the techniques of getting along with "two irresponsible partners, the state and federal governments". Agnew remarked that grants and shared taxes now amount to about 50 percent of income to the towns, as opposed to about 20 percent before the war.

And he pointed to this, along with the increasing size of town budgets, as a reason for having a manager.

"I can't think of any business that would try to run this size operation without central control", he stated.

Three major areas require the aid of professional assistance, Agnew continued, the duplication of effort, overlapping authority and waste of money.

In many areas, good common sense is no longer enough, he declared. Dealing with the government, state and national, on such programs as urban renewal requires a knowledge of these subjects and of governmental procedures. Even knowing where to go to get the answers is essential, he said.

Job classification and evaluation is also a necessary item in municipal government, he continued.

The manager need also have training, and will provide answers, in the field of capital outlay programs and fiscal planning. A manager must determine what a community can afford, and how the projects can be accomplished, he explained.

Regardless of the need in any community for a manager, Agnew warned, "the man will only be as good as the board who elects him wants him to be".

In answer to a question from the floor, Agnew said he believes that many men, opposed to the manager system, can work under it fairly and successfully. If the man is big enough, he can work successfully as a selectman under the plan, even if opposed to it originally. But, Agnew stated, if he isn't big enough, chances are good that he won't get elected anyway.

Hiring A Manager

Agnew said the town may expect up to 130 applications for the manager's job – but these can easily be weeded out to about 20 competent men. These must be interviewed, he explained, before a choice is made. But he believed the town could accomplish this in about six weeks.

Towns have personalities, as do men, Agnew continued. And this fact must not be ignored when choosing a manager. Some men, he went on, just wouldn't fit in a community such as Andover, even though professionally very capable. Thus, the persons selecting the manager should attempt to find a man, both able and with a personality that would fit in well in the town.

"This town is a prize appointment", he continued, and there should be no difficulty in getting a good man. He felt that the town would be able to attract managers from other communities just because "the town is what it is".

First Budget

It will take a manager most of a year to get settled in his job – and he should be judged only after seeing the first budget he draws up for the town.

Agnew also pointed out that managers don't like to get the reputation for firing employees and make every effort to retain all municipal employees in their present, or other, jobs.

A burst of laughter greeted Agnew's comments about one manager who brought a local rate down from upwards of $70 to $26 – but later he said this happened without a revaluation.

The meeting also applauded when Agnew commented that the per capita value in Andover, under the new valuations, is higher than Brookline's, the richest town in the country.

No Protection

Agnew explained remarks about managers not liking Massachusetts this way – there are no precedents in law here for their protection. And there is no licensing board, as there is in other states.

In those states, a board examines a manager much as nurses, lawyers and doctors must take examinations here. Then all communities are assured that a manager has met specific qualifications before he is eligible to take a job.

Lack of this protection in a state leads to many applicants who have not the professional qualifications of men trained in the field.

The lack of legal precedents often makes it difficult for a manager, Agnew continued, because everything that a town does is supposed to be based on some sort of precedent under the law.

100% Market Value

In a brief discussion of valuations in a community, the banker suggested that all communities may be coming to the 100 percent of fair market value formula for local assessments.

Noting that Andover has done this, he said that a test case in Springfield is likely to result in a court decision compelling all communities to adopt this approach. This has happened in Connecticut and New Jersey, he declared.

He also commented that a revaluation is needed every 10 years, to retain the equality. But a revaluation is not needed, if the town feels that it is necessary to adjust the fair market value when real estate prices have gone way down. This is accomplished, he said, merely by reducing the valuations by a percentage – the same for everyone.

Students Of Opera At November Club

Two members of the Boris Goldofsky Opera School at the New England Conservatory of Music will provide the entertainment at the November Club meeting next Monday afternoon.

The Club will meet at the clubhouse on Locke st. at 2 o'clock for tea, with the business meeting and program following after 3.

Pauline Gingras, lyric coloratura soprano and Thomas Fogarty, lyric tenor, will appear. The program will be varied, with solos and duets from the classical and semi-classical repertory.

O'Connell Seeking Moderator's Post

John F. O'Connell, 1 Punchard ave., is a candidate for moderator at the annual town election March 2.

Mr. O'Connell, long a town meeting spokesman, was the organizer and first president of the Taxpayers' Association. He was a reporter on Lawrence and Boston papers and for the New York Herald Tribune. He owned and operated the O'Connell Advertising Agency.

Mr. O'Connell was the proponent of secret ballots at town meeting and, later, successfully proposed that ballots be given to each voter at the entrance to the hall.

A member of the Historical Society, he was one of the original group that provided private funds for Pomp's Pond use by townspeople. After several years, the group successfully urged the town to take over this project for all residents.

Vital Aid To Education

VISUAL AID EQUIPMENT – Florence McCarthy, of the Shawsheen School faculty, and Robert Bachman, head of the audio-visual aids department, inspect the new projector at the Shawsheen School. Such equipment, and recording devices, are constantly in use now in both elementary, junior and senior high schools. (Danforth)

Audio-visual aids – becoming more and more important in school instruction during the past few years – has assumed a prominent place in educational planning in Andover.

Under the direction of Robert Bachman, an as-yet small audio-visual center has been set up in the Junior High School, to service all public schools in the community.

Although this method of aiding the educational process is not new, the use of audio-visual aids has only recently come into prominence. And now that projectors and recording equipment have been developed sufficiently to make their use practical, an all-out plan is being devised to make use of these aids.

The four elementary schools, the Junior High and the High School operate under a coordinated plan, using materials prepared locally as well as films and recordings ordered through the office.

The office will be able to advise teachers on available materials to suit their purpose and assist in ordering them. A series of slides are now being prepared from the local teachers' own materials, so that their use will be more effective in the classroom. The slides will be retained permanently.

Another project of the new office is to create a film library here, for use in the various schools.

The over-all purpose of the audio-visual method is to increase the interest in subject matter, present it in clear, concise form; make possible a greater amount of teaching for a limited time; and, through increased stimulous, increase the retention time of the materials.

Although this program is relatively new to Andover, the use of these aids has been going on for some time.

And of course even ancient people had the idea of visual aids, using drawings in the sand to illustrate and clarify a point.

PAID $25,003.43 FOR LAND SEIZED

The Governor's Council approved payment of $25,003.43 for land taken in Andover under eminent domain. The land belonged to Henry B. Bailey, late of Andover, and payment was authorized to Congressman Thomas J. Lane of Lawrence as administrator of the estate. The land was taken by the State Department of Public Works for highway purposes.

Driver Arrested After Accident

An Andover man was taken into custody by Lawrence police Monday night in the wake of a two-car accident at Andover st. and South Broadway in Lawrence.

Patrolmen James A. Collins and James F. Foley said they placed one of the operators, Myles F. Reilly, 32, 7 Dumbarton st., under arrest on charges of drunkenness and operating under the influence of liquor. He will be arraigned in Lawrence district court.

Investigating officers alleged that the local car was involved in a collision with one driven by Walter Leoncyk, 20, 561 Massachusetts ave., North Andover. Injured, according to their report was Leoncyk and James Miller, 20, 98 Spruce st., Lawrence. Neither required hospitalization.

POLITICAL WARFARE DUE NOW

(Continued from Page One)

empowered to instruct the town clerk to put the question on the ballot, under a permissive state law.

Here They Are:

These are the candidates for Selectman, as they will appear on the ballot March 2:

For three years — Stafford A. Lindsay and Sidney P. White, both candidates for re-election. Eugene A. Bernardin Jr. and William Stewart. Two to be elected.

For two years — William V. Emmons, candidate for re-election, Philip K. Allen, Alexander H. Henderson, Francis P. Reilly and James D. Wilson. Two to be elected.

For one year — Mason F. Arnold, Jeremiah W. Dyer, Edward P. Hall, Richard D. McKallagat, Victor J. Mill Jr. and Burton A. Shaker. One to be elected.

Political Warfare

Many observors indicate a belief, now that nominations are closed, that open political warfare will break out among the candidates.

It has been learned that funds have been solicited up and down main street for one candidate — a step that some local political experts claim is unusual. House meetings and other organizational gatherings have been held frequently during the past few weeks by many of the candidates.

Even as the campaign gets into high gear, there has been no statement of support for any candidate from any organized group. Some political observors had believed that the campaign committee that successfully worked for town manager would support candidates for the office. There has as yet been no statement to this effect, however. And no candidate, when announcing his intentions, has made any statement that would indicate support from this group.

It has been suggested that the primary concern in the next four weeks of most candidates will be to convince the voters that they favor allowing the manager plan to operate without any form of heckling.

Not Guilty Finding In Auto Fatality

Robert W. Dunn, 30, 18 Seery st., Malden, charged with operating to endanger in connection with the death Dec. 18 of Miss Mary Mitchell, 67, 37 Maple ave., was found not guilty by Special Justice William H. Daly in Lawrence District Court Monday.

The defendant, represented by Atty. Raymond M. Sullivan, was charged by Andover police with being the operator of an automobile that struck and fatally injured the victim on Elm st., near Maple ave., about 5:20 p.m.

The case was prosecuted by Chief David B. Nicoll and testimony was given by Patrolmen Warren Maddox and Calvin Deyermond, Fred M. Hale of Westwind rd., Mrs. Beverly Manning, 174 Elm st., Beverly Jean Sparks, Ballardvale; George E. Hancock, investigator for the Registry of Motor Vehicles.

Mr. Hale testified that he left Miss Mitchell out of his audo at the intersection, where-upon she would then have had to cross Elm st. to go to Maple ave. where she lived. According to the police testimony, the defendant said he was going west on Elm st. about 15 to 20 miles per hour and failed to see the woman in the roadway until she was hit by his right front fender. He told police he did not know what he had hit until he stopped and went back to investigate. Mrs. Manning and Miss Sparks, driving in the opposite direction, both said they did not see the pedestrian in the roadway, until after she was hit and they saw her being hurled into the air.

LAFALOT CLUB WILL MEET

The February meeting of the Lafalot Club will be held Tuesday evening, Feb. 3, at the home of Mrs. Albion Johnson on High Plain rd. Miss Elizabeth Doyle will be co-hostess.

New Discussion Group Forming

A new community-wide discussion group is to be formed at the Memorial Hall Library, Feb. 4, at 7:45 p.m. "Decisions, 1959" is to be a non-partisan discussion series, sponsored by the World Affairs Council, aimed to promote diplomacy at the grass root level with brief, illustrated "Fact Sheets" and handy discussion guides. Anyone wishing to join the group will have an opportunity to buy one of the inexpensive discussion material kits at the library.

The Andover group will be joining a nationwide program of citizen activity, not a course for the experts. The eight weeks of meeting will cover eight of the most urgent problems of foreign policy facing the United States today. It is hoped that this gathering together of interested citizens will result in deeper understanding of current affairs, greater knowledge of ways in which the country might handle them, and a citizenry more active and effective.

The same eight subjects will be discussed over radio and television, featured in newspaper articles and studied in the classrooms. A group of men and women who have shared their thinking through these non-partisan talks will be prepared to direct their own actions when a challenging idea is directed to them.

For full information, contact the library, or join at the opening meeting. Those unable to attend the first are invited to enter the group the next meeting, scheduled for Feb. 11, at the same hour.

ASK APPLICATION FOR TOWN MANAGER JOB

The Selectmen have asked for applicants for the town manager's post, through the nationally-circulated magazine of the International City Manager's Association in Chicago.

In a letter to the Association, the Selectmen have described Andover and requested that information on the need for applications for the job be published.

Secretary Stafford A. Lindsay, in the letter, wrote that in March the Board of Selectmen will be interested in hiring a town manager "at an attractive salary". He said the present Board will turn over the applications to the new Board, elected March 2.

Saw Slides Of World's Fair

Mr. and Mrs. Harold Leitch of Johnson rd. opened their home for the January meeting of Priscilla Abbot Chapter, N.S.D.A.R., and showed some wonderful slides of their trip to the World's Fair in Brussels last year. They showed scenes of Portugal, Spain, and the different parts of the Fair at Brussels, and as a climax, pictures of the Emerald Isle which they visited on their way home.

The luxury of the liners on which they sailed was depicted in several scenes, the old and new cities of Europe, the age-old buildings which have stood for centuries, and in some cases new buildings which must conform to the old style of architecture, the thatched roofs of the cottages, and of course the varied expositions at the fair were clearly shown in these very beautiful slides. One or two scenes of an actual bull-fight were shown.

There was a good attendance at the meeting, including five guests, one of whom was Mrs. Philip Dalrymple, regent of Samuel Adams chapter of Methuen. One of the oldest members of the Chapter, Mrs. Frank Whiting, was also present, and was welcomed by all, as she lives now in Onset, and has not been able to attend the local meetings.

The meeting opened at 2 o'clock with dessert served by the hostess, assisted by Mrs. William Trow, Mrs. Edward Thompson, Mrs. Edwin Lewis, Mrs. Arthur Bonner and Mrs. Ernest Edmands. Mrs. Arthur Reeves presided at the coffee table.

The business of the day followed, opened by the regent, Mrs. Frank Hayes. Devotions and patriotic exercises were led by the chaplain, Mrs. Roland Glines, one verse of the National Anthem being sung by the gathering. Mrs. J. Keith Jones read an excerpt from the Press Digest on National Defense.

The secretary's report by Mrs. Thompson, and the treasurer's report by Mrs. Bonner, were read and accepted. Mrs. Thompson also read the minutes of the Board meeting held recently at the home of the regent, and Mrs. Hayes asked those present to consider ways and means of increasing the membership, and finances. Mrs. Hayes read letters from several of the state officers who were present at the December meeting, all expressing their pleasure in coming to that very interesting meeting, held in the Andover Historical house, and hearing about the lady for whom Andover's chapter is named, Priscilla Abbot.

The next meeting of the Chapter will be held Feb. 10 at the home of Mrs. Harold Foreman on Moreland ave.

5 New Members Were Initiated

Five new members were initiated into the Beta Mu Chapter of Beta Sigma Phi Sorority Jan. 22, during a meeting at the Andover Inn.

Two other members received their jewel pins at the meeting — Vivian Newell and Angelina Nicolosi.

Ruth Bond, Jean Gillies, Genevieve Souter, Florence Durrance and Ruth Homewood received their pledge pins.

At a meeting earlier this month at the home of Mrs. Weston Eastman, the Chapter was entertained with a program entitled "People", presented by Mrs. Thomas Marjerison.

It was announced that the Sorority, with all its Chapters throughout the world, will contribute towards a three-year, $10,000 fund to aid in research and treatment of children afflicted with cancer. The money will be given to the Children's Cancer Research Foundation in Boston for this use.

ATTENDED MEETING

The Rev. Hugh B. Penney of Lowell st., attended the greater Lawrence Ministers Association meeting, which was held recently at the Merrimack Valley Works of the Western Elec. Co., in No. Andover. They were breakfast guests of the company and luncheon guests of W. C. Care Brooks, who is Manager of the Merrimack Valley Works. A business meeting of the Association was held.

Medical Panel At Village PTA

The February meeting of the Shawsheen School PTA will be held Wednesday evening, Feb. 4. Class room visitations with the teachers will be held from 7:30 to 8 in the school classrooms.

Following the business meeting, conducted by the president, Charles Adams, an interesting and informative medical panel will be held in the school hall. Dr. Douglas Dunbar, graduate of Allegheny College and the University of Pennsylvania School of Dentistry, will present a dentist's point of view on children's problems. Dr. Dunbar, local dentist in Andover for the past five years, served with the U. S. Navy during World War II in the Pacific area.

Joining hands with Dr. Dunbar, will be Dr. Charles Hollis, well known local pediatrician. Dr. Hollis, a graduate of Harvard College and Tufts Medical School, and who is presently instructor of pediatrics at Tufts, will speak on children's diseases. Dr. Hollis is well remembered as past president of the Lawrence Medical Association and is currently on the staff of the Lawrence General Hospital, Bon Secours Hospital and the Boston Floating Hospital.

Dr. I. Malcolm Humphrey, podiatrist, will complete the medical panel. Dr. Humphrey, a graduate of Temple University, had the distinct honor last summer of serving on a panel discussion of International Diabetic Congress in Duseldorf, Germany. He is currently on the staff of the Deaconess and Peter Bent Brigham Hospitals in Boston.

Following the panel discussion, the parents will then have the opportunity to submit written questions to the panel.

At the conclusion of the program, refreshments will be served by the first grade mothers, under the direction of Mrs. James Reilly and Mrs. Ernest Krakauer, hospitality co-chairman.

Will Discuss School Problems

Tuesday evening, Feb. 3, at 7:30, Andover High School will be host to the parents of pupils in the junior class.

At this time of year juniors have serious decisions to make regarding future plans. There have been important changes in admission requirements to some schools, the State Teachers Colleges in particular. Some colleges now make decisions on admissions at the end of the junior year.

These and other situations make it timely to have a meeting for parents of juniors in February. Parents who have not already become acquainted with the teachers of their children will have an opportunity to do this.

The program will consist of a question and answer period in the auditorium from 7:30 to 8:30, followed by an hour in which to see individual teachers.

All parents are cordially invited regardless of the grade level of their children, but the program of the evening is planned more particularly for a discussion of the needs of juniors.

WOMAN'S UNION TO MEET

Owing to a change in plans, the Woman's Union of the West Church will meet for their February meeting next Wednesday, Feb. 4, at 2 in the Church Fellowship Hall. The hostesses will be Mrs. Stephen Kennis, Mrs. Arthur Lewis and Mrs. Margaret Baxter.

TOWN OF ANDOVER

PUBLIC HEARING

In accordance with Chapter 40, Section 27, notice is hereby given that the Andover Planning Board will hold a public hearing Monday, February 16, 1959, at 7:45 p.m., in the Central Elementary School Hall, for the consideration of the following zoning changes:

ARTICLE 37. To see if the Town will vote to amend the Zoning By-Law by establishing Section IV B, "APARTMENT DISTRICT" as follows:

Section IV B Apartment District

In an Apartment District no land, building or structure shall be used except for one or more of the following purposes:

1. Any use permitted under Section IV, subject to the same provisions as are contained therein, and subject to the same restrictions as to lot size and frontage as apply to that Single Residence District which has the greatest amount of common boundary with the Apartment District.

2. Subject to special permit by the Board of Appeals, as provided in Section 4 of Chapter 40A of the General Statues and relevant sections of this By-law, use as an Apartment development, provided that an applicant for such a special permit shows to the satisfaction of the Board of Appeals that the development will conform to the following permitted uses and specific regulations:

a) Permitted Uses

1. Multiple or group dwellings, provided that there shall be not more than 12 dwelling units per structure.

2. Such accessory uses as are customary in connection with the permitted principal uses, except that professional offices and home occupations are specifically excluded.

b) Regulations

1. No structures shall exceed two and one-half (2½) stories, or thirty-five (35) feet, in height, measured above the top of the foundations.

2. No structures, except one-story garages or carports, or unpierced walls of residential structures shall be nearer to each other than the sum of the heights of their two opposing exterior walls, measured above the top of the foundations.

3. There shall be a lot area of at least 3500 square feet for each dwelling unit in multiple-dwelling structure, in addition to the lot area, if any, required for other permitted uses.

4. The gross usable floor area of all principal and accessory structures shall not exceed 30% of the gross area of the lot.

5. No structure shall be built within 30 feet of the side line of any public street or way, and no structure or parking space shall be built or maintained within 20 feet of any other exterior property line.

6. There shall be provided at least one paved off-street parking space, or space in garage or carport, for each dwelling unit, said space to be not more than 200 feet from the outside entrance to such unit. No space shall be considered available for parking which reduces the effective width of a driveway providing access to more than one dwelling unit to less than 12 feet.

7. There shall be a paved driveway, or paved walk adequate to accommodate emergency vehicles, within 50 feet of the outside entrance to each dwelling unit.

c) Access Provisions

1. Any road or driveway providing principal access to 6 or more dwelling units or 8 or more parking spaces shall conform to appropriate provisions of the Subdivision Control Regulations as if it were a minor residential street. Before issuing permit the Board of Appeals shall request a report from the Planning Board on the extent of such conformity.

If the Board of Appeals also finds:

a) that all of the specific regulations set forth above will be satisfied; and

b) that the development as planned will not be detrimental to the neighborhood in which it is located; and

c) that the development as planned will not derogate from the intent of this By-law; and

d) that the Town can reasonably expect to provide the access utilities, and facilities necessary to serve adequately the development as planned.

The Board of Appeals may then issue a special permit and may impose such conditions and safeguards as it deems necessary to protect the welfare of the Town.

Printing Jobs Given Out After Receiving Prices

The Town Printing Co. has been given the job of printing the town reports, at a price of $3.96 per page for approximately 1,200 copies containing about 240 pages.

The Andover Press quoted a price of $4.80 per page for the same job.

The Selectmen's office is typing the reports and the printing job is being done by offset printing, by reproducing the typewritten pages.

The Finance Committee report is also being done by Town Printing, at a page price of $12.10 per page, for some 6,500 copies containing about 44 pages.

The Andover Press price was $12 per page and Spaulding Moss quoted a price of $12.70.

Included in the request for prices was a requirement that the printer furnish typewritten copy for the FinCom report. On the basis of prices for this task, the Town Printing Co. was given the job, with the understanding that the combined price was the lowest.

Selectman Stafford A. Lindsay sought the prices from printing firms he selected. The prices were read at the Selectmen's meeting Jan. 19 but were taken under advisement. The Selectmen awarded the town report later and the Finance Committee awarded its job on the basis of prices furnished to it.

The town rule on bidding specifies that any expenditure over $500 must be made after receiving bids. But the rule does not state that the request for bids be advertised in any special method.

Lenten Institute At Free Church

The deacons and deaconesses of the Free Christian Church are now accepting registrations for the Adult Lenten Institute, which will be held Tuesday evenings during Lent.

These sessions will begin at 7:30 p.m. and conclude at 9:30 each week. Lecturers during the first hour include the Rev. A. Graham Baldwin, the Rev. Arthur Morley, the Rev. Daniel Leavitt and Donald Amy. Movies and a panel discussion will feature other presentations. During the second hour each evening, there will be three discussion groups to be led by members of the Church. They will be based on the topics, "Prayer and Personal Religion"; "Modern Rivals to Christian Faith"; and "Life, Death and Destiny". There is a small registration fee.

The committee arranging the Lenten Institute includes Everett Gorrie, Edmund Sorrie, Mrs. Angus Stewart and Mrs. Denis Hole.

TOWNSMAN MOVING TO COLONIAL CENTER

(Continued from Page One)

Center.

The new offices, on the second floor of the Colonial Center, are, as far as we know, the only existing specially-designed offices for the production of an offset weekly newspaper.

Access to the offices will be through the main door of the Center. Appropriate signs will be easily visible, pointing out the location of the new quarters and how to get to them.

Ample parking facilities are also available at the Colonial Center, for anyone having business with the newspaper.

Hectic Job

As anyone who has ever moved knows, after a few years in one place, there's plenty to do.

For several weeks the Townsman staff has been working to pack everything and tag all the equipment to make the moving easier. And as in any home, there has been plenty to throw away — so many items that were saved because they'd come in handy some day. But the day never came and out they went.

Our moving job has been complicated, as well, by the necessity of continuing relatively normal business operations throughout the transition.

There will not be a lost business day, nor will there be any interference with normal publication of this newspaper.

The new offices and work areas have been created to offer maximum efficiency in putting out a newspaper printed by the offset method.

And once we have been able to move in and get accustomed to the new surroundings, we want all of you to come and see them too.

The Townsman plans to hold an open house within a few weeks, so that all its friends may visit the spanking-new quarters. We'll keep everyone posted on details of the open house.

Seeks Seat On School Board

KENNETH P. THOMPSON

Kenneth P. Thompson, 61 High st., is a candidate for one of the two School Committee seats appearing on the ballot March 2.

His announcement brings to four the number of candidates for the two posts.

Mr. Thompson is owner of the Kenneth P. Thompson Co., Inc., for the sale and installation of office equipment, and proprietor of the Andover News Co.

Born in Andover, Mr. Thompson attended local schools and Punchard High School. He also has taken specialized courses at The Bentley School of Accounting, Lowell Technological School and at the U. S. Coast Guard Academy. Prior to starting his own business in 1955, he had been a sales engineer and manager of dealer sales in New England for the Mosher Safe Co.

The son of the late Roland W. Thompson and Mrs. Thompson, he is a veteran of three years' service in the Coast Guard during World War II. His father was plant superintendent at Tyer Rubber Co. and also was mechanical sales superintendent for that firm. Mrs. Thompson now assists her son at the Andover News.

Mr. Thompson is a member of the Board of Trade, Greater Lawrence Chamber of Commerce, Andover Service Club, Central School P.T.A., the Bon Secours Guild and has been active in United Fund solicitations. He is a member of St. Matthew's Lodge, A. F. and A. M., is assistant cubmaster of Den 73 at the South Church, and is the liason person between the Board of Trade and the Development and Industrial Commission.

He is married to the former Ruth Bean, R. N., of Tewksbury. The family includes five children, Eleanor, Priscilla, Alan and Douglas, all in public schools, and Nancy, who is not yet of school age. Although Mr. Thompson's residence on Jan. 1 officially appears on the ballot as 61 High st., the family home is on Howell dr.
